

Product information

SUNOCO Regatta SL range

Description Alkaline type detergent lubricating oil for use in the crankcase systems of slow speed high-output crosshead marine diesel engines, particularly engines with oil cooled pistons.

Application Marine SL oils are designed for moderate crankcase duty in slow speed high-output crosshead marine diesel engines.
Crankcase oil for trunk piston engines under moderate service operating on low sulphur distillate fuel.

Specifications - SAE 30 and SAE 40
- TBN = 6,5 mg KOH/g

Properties Manufactured from solvent refined high VI paraffinic base oils and selected additives packages offering good chemical stability, appropriate detergent and dispersant performance, anti-wear and anti-corrosion properties as well as oxidation resistance.

Typical Analysis :

	SL30	SL40
SAE	30	40
Density at 15°C	0.896	0.898
Viscosity at 40°C / cSt	115	150
Viscosity at 100°C / cSt	12	14.5
Viscosity index	98	95
Flash point °C	258	261
Pour point °C	-15	-12
TBN mg KOH/g	6,5	6,5
