

## SUNOCO 2T MX Competition

**Description** Self-mixing 2 stroke engine oil based on synthetic esters and the latest additive technologies.  
Useable at racing conditions, with constant varying and continuously high speeds and/or loads.

**Application** In virtually all 2 stroke motorcycles.  
Specifically designed for use in high speed and the more powerful 2 stroke motorbikes, with or without oil injection.  
Recommended application ratio, 1 or 2 parts of lubricant with 50 parts of gasoline (consult the prescription of the OEM to know the exact application ratio).

**Specifications**

- JASO FC
- ISO GD
- PIAGGIO HEXAGON

**Properties**

- Prevents clogging of the sparkplugs.
- Excellent self-mixing properties in all kinds of gasoline.
- Low smoke and odour.
- Maximum protection against wear and corrosion.
- Perfect lubrication at all possible working temperatures and conditions.

### Typical analysis :

Density at 15°C	0.867
Viscosity at 40°C / cSt	54
Viscosity at 100°C / cSt	8.4
Flash point °C	101
Pour point °C	-48
TBN mg KOH/g	2.5
Colour	3.0
