

SUNOCO 4T GP Competition

- Description** Synthetic engine oil, reinforced with the latest additive technologies, which gives a perfect lubrication to all 4 stroke engines used at very high and continuously changing loads as they occur at racing conditions.
- Application** Specially recommended for 4 stroke motorcycles from the following makes : BMW, HONDA, KAWASAKI, MOTO GUZZI, SUZUKI, TRIUMPH and YAMAHA,... This oil is also suitable for the lubrication of the engine integrated clutch with common oil bath.
- Specifications**
- SAE 5W40
 - API SJ
 - ACEA A3
 - CCMC G5
 - JASO MA
- Properties**
- Provides excellent lubrication as well at very low temperatures, as at very high temperatures.
 - Reduces friction of the moving parts.
 - The very efficient detergency and dispersant additives, make sure that the engine keeps clean and free from deposit.
 - Effectively lowers oil consumption, even with high engine loads / rpm.
 - Extends life time of the engine and of the exhaust catalyst.
 - Meets the toughest lubricant related OEM prescriptions.

Typical analysis :

Density at 15°C	0.850
Viscosity at 40°C / cSt	90
Viscosity at -30°C / cP	6600
Flash point °C	235
Pour point °C	<-45
Noack volatility %	8
Colour	L4.0
