

# SUNOCO

## 4T Racing Gear

**Description** Multigrade (SAE 75W90) 100% synthetic gear box oil with special "extreme pressure" type additives.

**Application** Lubrication of heavily loaded gear boxes even when submitted to extremely severe circumstances. Also suitable for a great number of shaft drive transmissions. Verify maintenance manual for precise prescriptions.

**Specifications** meeting and exceeding API GL-5 and API GL-4  
viscometrically meeting SAE 75W90

**Properties**

- betters and eases the gear shifting, particularly at low temperature shortly after engine start-up.
- because of the 100% synthetic composition suitable for "all time" use, this starting from extremely low up to very high ambient and oil bath temperatures.
- prevents excessive wear through the use of very special and well balanced additives combinations.
- does not foam.

### Typical analysis :

Density at 15°C	0.856
Viscosity at 40°C / cSt	80
Viscosity at 100°C / cSt	15
Flash point °C	200
Pour point °C	<-45
Colour	L2.0
