

## SUNOCO CHF

**Description** Special, fully synthetic hydraulic fluid suitable for power steering and a number so called integrated hydraulic systems of latest generation cars, trucks, tractors, ... etc. for which the below mentioned specifications are required.

**Application**

- central hydraulic systems.
- power steering.
- brake and clutch controls.
- level adjustment units.
- shock absorbers (including active types).
- stability and traction control systems (ABS/ASR/ASC).
- hydrostatically driven fans, generators and air conditioning units.
- hydropneumatic suspension devices.
- spring(action) / suspension fixtures for engine bodies.
- electrohydraulic control of convertible car top covers.
- central (door/access) locking devices ... etc.

**Specifications**

- ISO 7308
- DIN 51524 (T3)
- AUDI /VW VW TL 52146(VW part N° G002000)
- BMW 81229407758
- Deutz 2940929
- Fendt X902.011.622
- Peugeot B 712710
- Volvo STD 1273.36
- Saab Special power steering fluid
- Mercedes MB345.00

### Typical analysis :

viscosity at 100°C / cSt	6.0
viscosity at -40°C /cP	1100
viscosity index	>300
flash point °C	155
pour point °C	<-55
colour	greenish
