

Product information

SUNOCO

Chain Lube

Description Special waterproof transparent chain lubricant suitable for every chain. Contains colloidal PTFE for optimal lubrication.

Application

- Engines and bicycles.
- Chains and slide ways.
- Tractor equipment.
- Escalators.

Properties Contains PTFE which gives extra lubrication and penetration properties. Very strong lubrication film gives minimum wear. Enlarged lifetime of the chains. Excellent adhesive properties. Resists salt water, steam and aggressive cleaning fluids. Easy to be used with spray can.

Typical analysis :

Density at 15°C	0.582
Colour	yellow/brown
Odour	solvents
Vapour pressure at 20°C	3.2 bar
