

Product information

SUNOCO

LHM Plus

Description Hydraulic fluid especially developed for PSA vehicles.
(Citroën, Peugeot).

Application For vehicles with fluid reservoirs which specifically identify full power systems
(brakes, suspension and power steering).
Hydrodynamic suspension.
Shock absorbers.

Properties Meets PSA specifications.

Application Very good low temperature properties.
Excellent performance even under extreme changing temperature
circumstances.

Typical analysis :

Density at 15°C	0.840
Viscosity at 40°C / cSt	18.5
Viscosity at 100°C / cSt	6.2
Viscosity index	>300
Flash point °C	120
Pour point °C	-55
Colour	Green
