

## SUNOCO Standard Universal Mono range

**Description** Monograde motor oil meeting MIL-L-46152A. Low ash content.

**Application** Standard Universal Mono oils are used in all gasoline, diesel and LPG engines (without turbo) and in GM two stroke diesel engines and everywhere where the underneath mentioned specifications are prescribed.

**Specifications**

- API SE / CC
- MIL-L-46152A / MIL-L-2104B
- MB 226.0
- GM 6041M
- Ford M2C-101-C

**Properties**

- Excellent protection of engines and transmissions against rust and oxidation.
- Contains additives that limit wear and oxidation and works as dispersant and detergent.

### Typical analysis :

SAE	20W20	30
Density at 15°C	0.883	0.892
Viscosity at 40°C / cSt	61.8	100.0
Viscosity at 100°C / cSt	8.3	11.5
Viscosity at -15°C / cP	<9500	-
Viscosity index	103	102
Flash point °C	215	230
Pour point °C	-27	-12
TBN mg KOH/g	4.7	4.7
