

Product information

SUNOCO Sunaplex 992 EP

Description Aluminium complex grease with EP properties.

Application For use in ball bearings working at high temperatures and everywhere where heavy and humid circumstances prevail.

Bearings and gears under heavy loads such as conveyors, highway material, etc.

Properties

- Multi purpose aluminium complex grease.
- Resistant to peak temperatures up to +190°C.
- EP properties and a high dropping point.
- Excellent water resistance.
- Good adhesive properties.
- Excellent resistance top rust and oxidation.
- Easy to manipulate at low temperatures.

Typical Analysis :

NLGI	2
Colour	Dark
Soap type	Al-complex
Penetration at 25°C :	
60 strokes	280
10.000 strokes	290
Dropping point °C	260
Application range °C	-25 / +170
Timken Load / lb	45

EP properties	
4 ball weld load / kg	260

Base oil specifications	
Viscosity at 40°C / cSt	220
Viscosity at 100°C / cSt	19
