

Product information

SUNOCO

Sunfood PA Grease

Description Very good water resistant AL-complex grease, which can be used at high pressures.

Application General lubrication in the food industry.
Applicable for the lubrication of bearings, chains,... Taps and valves in drink water applications. Bearings under medium loads and high temperatures from -40 up to 180°C.

Specifications - NSF H1 Category registered.

Properties

- Good resistance against water and loads.
- Very good adhesive properties.
- Contains solid lubricating components.

Typical analysis :

NSF Registration N°	140916
NLGI	2
Soap type	Al-complex
Penetration unworked 25°C	290
Dropping point °C	264°C
Four Ball Weld Load / kg	>400
Four Ball Wear Scar Diameter	
- 1'/80 kg / mm	0.72
- 1h/40 kg / mm	0.80
Emcor anti-corrosion test	0/0
Copper Strip Corrosion, 24h/100°C	1b
Flow pressure at 15°C / mbar	>2700

Base oil properties	
Type	PIB
Viscosity at 40°C / cSt	229.3
Viscosity at 100°C / cSt	19.68
Viscosity index	98
