Eco Grease Ca2

Description Rapeseed oil based calcium-soap grease. Environmentally harmless and rapidly biodegradable.

Application Agricultural and constructional machinery and equipment which should be greased with conventional NLGI 2 Lithium soap, multipurpose grease via nipples or at open lubrication points. As a rule these are mechanical arm joints, chains, plain bearings, exposed gears, towing hitches, battery terminals, etc...

DO NOT MIX ECO GREASE Ca2 WITH OTHER GREASES
DO NOT USE FOR WHEEL BEARINGS OR WATER PUMPS
When using ECO GREASE Ca2 for the first time, pump the grease through the bearing until it extrudes past the seal or out of the vent.

Properties

- Excellent lubrication properties and offers reliable protection against wear.
- Adheres well, water resistant, protection against corrosion.
- Work stable. Structure of the grease does not change when in use.
- The use of ECO GREASE Ca2 is ecologically beneficial, protects the environment in general, helps to keep ground water uncontaminated and to maintain human, animal and vegetable health.

Typical analysis :

NLGI	2
Soap type	Calcium
Worked penetration	265 - 295
Dropping point °C	130
Application range °C	-40 / +90
Emcor corrosion test	1 / 2
Copper corrosion 24 hr/ 100°C	0
Four ball wear test N	1800

Base oil specifications	
Viscosity at 40°C / cSt	22
Base oil type	Rapeseed
