

Product information

SUNOCO Multi Moly Grease

Description Multi Moly Grease is a premium quality lithium grease, fortified with MoS₂ and graphite.

Application It is a true multi purpose EP grease suitable for severe operating conditions in industry, marine or automotive applications.
For the lubrication of all kind of roller bearing sleeves, needle bearing, axle bearing, chassis, ball and socket joints, joints, centres of rotation.

Properties

- Resistant against peak temperature of +150°C.
- Extraordinary adhesive power.
- Extreme low friction coefficient.
- High pressure absorbing properties.
- Lowers the wear.
- Very good anti corrosion and anti rust properties.
- Good water and oxidation resistance.
- Very high stability.
- The grease is not apt for application in fast turning ball bearings as found in electro engines.

Typical Analysis :

NLGI	2
Colour	Grey/Black
Soap type	Lithium
Dropping point °C min	189
Application range °C	-20 / +130

EP properties	
4 ball weld load / N	2800

Base oil specifications	
Viscosity at 40°C / cSt	220
