

## Product information

# SUNOCO

## Rockdrill range

**Description** Premium quality, heavy duty oils, formulated to provide the major performance features needed for rock drill and pneumatic tool lubrication.

**Application** For rotary and percussion type wet drilling equipment used in both surface and underground mining. Lubrication of pneumatic air tools used in construction and manufacturing industries.

**Properties**

- Rust and corrosion protection under the most severe conditions.
- Anti-foam properties, good lubrication of steel-on-steel and steel-on-bronze under sliding and impact loading conditions.
- EP performance , foam inhibition and good heat and oxidation stability.

### Typical Analysis :

	32	68
Density at 15°C	0.922	0.931
Viscosity at 40°C / cSt	33	63
Viscosity at 100°C / cSt	5.5	7.6
Viscosity index	97	75
Flash point °C	190	200
Pour point °C	-24	-21
Aspect	tacky	tacky
Colour	L8.0	L8.0
