

Product information

SUNOCO Sunihon

Description Chlorine free, low viscosity honing oil, which can be used for all honing operations.

Application SUNIHON is based on oils with good suspension properties. The low viscosity ensures the removal of the small chips that are formed straight away because even the smallest particles in suspension can scratch the work piece.
In order to achieve good cutting performance, the lubricant is formulated with chlorine free, active cutting additives .
The low viscosity of the SUNIHON ensures excellent cooling and rinsing properties.

Properties

- Contains no chlorine additives.
- Excellent dimensional and geometrical accuracy.
- Dual function: cooling and rinsing.
- Long tool service life.

Typical analysis :

Density at 15°C	0.8895
Viscosity at 40°C / cSt	7.1
Colour	L3.0
